

How to Take This Clinic

R e l a x

Do all the lessons as they arrive, imperfectly.

Don't dwell on "getting it right" at the expense of completing what's given you to do as honestly as you can at the time it's given. Your magik iz in establishing and maintaining proactive MOMENTUM, not perfection.

Forgive

Get used to forgiving yourself for “dropping the ball”.

You are here to practice the artful science of Loving Yourself Wealthy. This will be achieved through applied radical and unconditional self-acceptance.

So start today by forgiving yourself in advance for getting triggered, distracted and/or depressed and turning away from your Desire, and give yourself permission to continue onwards and upwards anyway.

Repeat

Right now, before you begin, start planning to repeat this process.

Author, Superstar Speaker & Motivation Mogul, Lisa Nichols broke free of toxic survival, leaving public assistance to become a multiple bestselling author and millionaire success catalyst. Lisa reveals that she took the course she used to engineer her transformation, a total of **42 times!**

Every early childhood educator and parent knows we all learn by failure and repetition. As adults our egos have convinced us that “not getting it on the first try” iz something to be ashamed of. You're in this clinic because the heart of you knows better than your ego.

Promise yourself right now to give the high-spirited little girl in you full permission to drink in this 30 days of Emerge-n-See medicine and thoroughly make it your own...No matter how many repeat doses it takes.

Let's Be Beautiful Together!
